

# MORE THAN A PRE-SCHOOL

In 2009, we ventured into K-12 education with our first EuroSchool in Mumbai. We are affiliated to the ICSE and CBSE Boards and also offer the CIE (IGCSE) program. Today, we are operating more than 10 EuroSchools across metropolitan cities like Mumbai, Ahmedabad, Surat, Bengaluru, Hyderabad and Pune. Our unique philosophy of 'Balanced Schooling', which keeps equilibrium between academics and co-curricular activities, sets us apart from other schools.

EuroKids has always been the pioneer in transforming the way education has been viewed in India. Hence, keeping pace with the changing educational needs of today, we launched EuroVarsity – a virtual university aimed at being an enabler of discovery, communication, and preservation of knowledge. It offers skills and expertise tailored to meet the needs of a new-age Pre-School teacher through Diploma in Early Childhood Care and Education (E.C.C.Ed). The course topics are delivered in a simulated classroom environment to offer an interesting, engaging and enhanced learning experience.

# WHAT ARE THE DISCOVERY AREAS IN A EUROKIDS KINDERGARTEN? LET'S FIND OUT.

---

## Painting & Collage

We've designed this area to help bring your child's creative talents to the fore.

## Clay Art & Moulding

It's here that our belief in the 'touch, explore, learn and enjoy' approach of learning is put into practice.

## Digital Area

In today's tech-savvy world dominated by gadgets and gizmos, every child needs to be a self-learner. The sooner, the better! Once your child gains confidence in recognizing letters and writing on paper, we introduce him to the wonderful world of e-learning.

## Reading & Writing

At EuroJunior & EuroSenior, we ensure that your child is strong with his reading and writing basics. After all, it is the very foundation on which the tall tower of knowledge will stand for a lifetime.

## Project Work

Project work enables in-depth learning. It involves integration of all areas of the curriculum in an engaging way. Children like to investigate & explore that allows to bring meaningful real artifacts into the classroom.

## Math Corner

Math is an integral part of the school day at EuroKids. Here, simple calculations are combined with a variety of fun experiences from which the child learns to distinguish and classify and observe similarities and differences in the world around him/her.

# A LOOK AT HOW WE NURTURE CHILDREN

---

## Child-friendly Ambience

Located in peaceful, up-market locations, our Pre-Schools provide an environment wherein children are safe, nurtured, loved and encouraged to learn.

## Unique Delivery Method

Like our curriculum, our teaching methodology has also been devised to suit the age group. Over the years, we have perfected the art of first drawing the child's attention and then keeping his/her mind engaged and making the learning process interesting and absorbing.

## Hygiene & Safety

For us, hygiene and the safety of children matters a lot. It has resulted in us taking complete care in maintaining hygiene in our Pre-School and being pro safety. We've introduced and implemented safety and hygiene measures in all our Pre-Schools.

# CHECK OUT THE EUROKIDS ADVANTAGES

At EuroKids, we care about your child's future. Therefore, we offer special programs that are focused on bringing about organized growth and development in your child, enabling him/her to be more equipped for tomorrow.

## **MOTION BASED LEARNING**

Continuing our tradition of innovation, we are the first to introduce Motion Based Learning. It's a unique program that uses technology and digital aids to teach children through interactive animated games, stories and videos that enhance learning abilities within children. We've specially designed the content in a manner that will help your child develop curiosity and enable problem solving abilities and independent thinking skills in him/her.

## **EURO MUSIC**

Who doesn't love music? Through EuroMusic, we've attempted to offer an early childhood, music and movement program that provides musical experiences to help children discover and develop an ear for music. We encourage your child to explore musical instruments like the drum, tambourine, one bell and three bell jingles, slide whistle, clackers, etc. and provide fun musical learnings through interesting themes like nature fun-n-frolic, good manners, animals and plants, seasons of the year, etc.

## **EUROGYM**

A children's gym? Yes, EuroGym is India's first specialized children's gym that provides quality fitness training to EuroKids children. We use various fun equipment like trampoline and foam mats, ball pools, Swiss balls and fun obstacle courses to keep your child active and fit. We also monitor and record your child's progress at each stage of the program and conduct a fitness test every 8 to 10 weeks to test your child for flexibility and endurance.

# FUN@ EUROKIDS

---

As you know, EuroKids is all about making learning fun. So, we celebrate 'special days and events' as social engagement activities with children to help them understand the environment and people around whom they are growing.

## Festivals

- Celebration of festivals at school make it fun and exciting for children
- Increases bonding and social skills among them
- Makes children express themselves freely

## Theme & Colour Days

- We ask children to dress up as famous individuals/characters
- We take children for field trips for which we have interesting concepts and themes
- We also ask children to dress up in the theme colour and decorate the class according to the chosen theme

## Family Engagement

- We invite fathers to get involved with their children in activities and games
- We also invite grandparents to school on special days to interact with their grandchild in unique ways
- We conduct parent meetings to showcase school activities like puppet shows, rhyme sessions and storytelling, etc.

## Graduation Day:

Each child gets an opportunity to wear the graduation robe and cap to receive his/her graduation certificate when he/she graduates from one class to the other.

## Annual Day:

All the children participate in the Annual Day program and enjoy being on stage to showcase their talent. Each year we have a different theme for the Annual Day.
